**Data Note:** The Traffic Profile displays up to 25 of the closest available traffic counts within the largest radius around your site. Traffic counts are identified by the street on which they were recorded, along with the distance and direction to the closest cross-street. Distances displayed as 0.00 miles (due to rounding), are closest to the site. A traffic count is defined as the two-way Average Daily Traffic (ADT) that passes that location. Vintage of data is September 2004.
