WHAT MAKES THIS PROJECT SO ART-CENTRIC

After extensive focus groups, we have studied the basics of what artists seem to almost universally want and need, and have committed to providing those features.

The big feature is the fully equipped arts production facility that is part of the association common space. A party room for artists, equipment included. The construction of this \$600,000+ facility is fully funded by private donations. It is yours to share with your neighbors.

There are other amenities for the community to share, including gallery space, an office/technology area, an outdoor sculpture/Zen garden, a freight sized elevator, and a truly functional loading dock. These are all things we were consistently told the artists needed and/or wanted. Enjoy.
